

CromeCap 100 cv910W

Simple, Plug & Play Lecture Capturing

Quick and Simple

Simply connect your computer via HDMI or VGA, press the record button, and your entire lesson will be recorded and ready to share.

No Complicated Software

Since the CromeCap 100 combines all video and audio into one file on an SD card in the unit, there is no complicated video editing or capture software needed to produce full, rich lessons.

Noise Canceling Technology

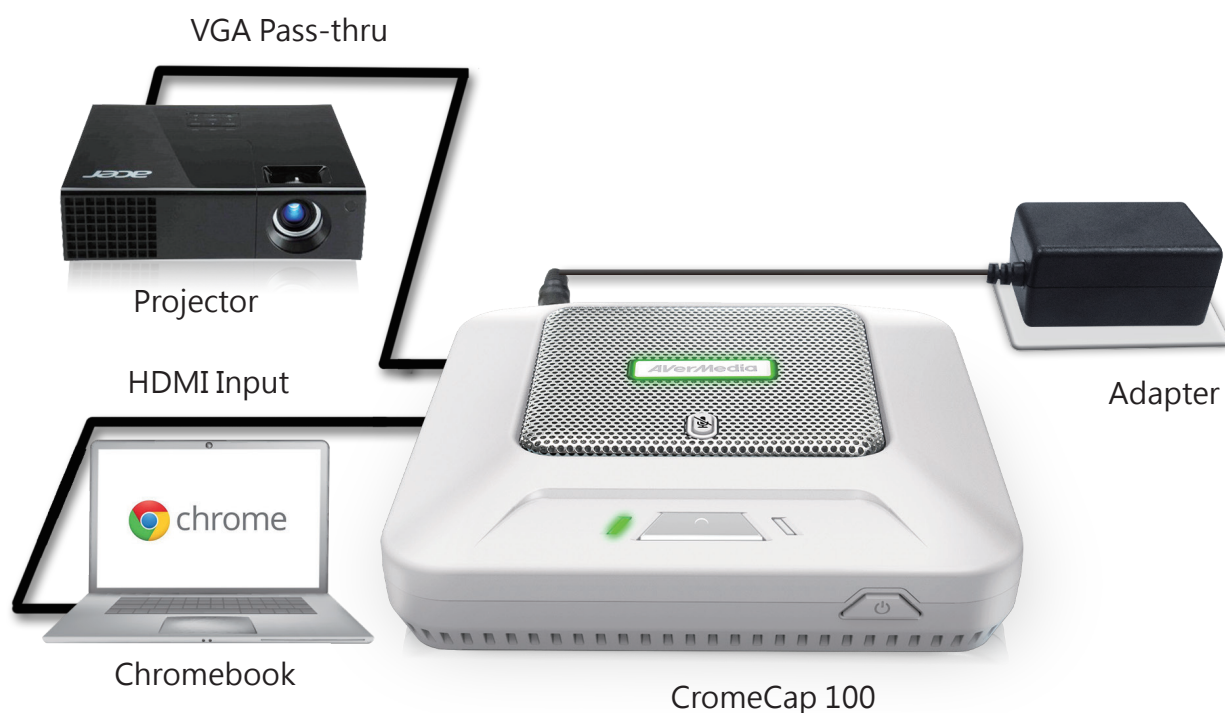

The integrated microphone includes noise cancelling technology to effectively capture the teacher's voice, and reduce irrelevant background noises for clear, smooth audio.

Convenient Mute Control

One-touch mute control allows the teacher to mute the microphone while other audio is playing, or side conversations are taking place to maintain privacy.

Connection Diagram

Dashboard

It's a utility for adjusting settings by your usage scenarios.

Large Space:
40 people, 100m²

Medium Space:
15 people, 36m²

Small Space:
5 people, 4m²

Best Quality:
13m/GB, 10Mbps

Standard Quality:
22m/GB, 6Mbps

Low Quality:
68m/GB, 2Mbps

Specification

Interface	USB 2.0 (mini USB)
