

**let's get Inspired for a "brand new day"
my heart's on fire and I'm burning for change
that's true, for me and you**

**let's find a way to right every wrong
even when you feel weak, deep inside your strong
it's true, inside of you**

*no time to sit around
let's stand together now
there's no color in truth
we'll find a better way
for me and you*

**let's open up the whole world
we've just got to believe
open hearts, open minds
we are here, we're alive
can't you see
on the field of dreams**

**let's come together now – stand up and fight
It's time we let it out – hearts on the line
you choose, the best of you**

**no way to hold us down, we're on a high
take a hold of my hand, I don't want to lose sight
of you, 'cause this love is true**

*no time to sit around
let's stand together now
there's no color in truth
we'll find a better way
for me and you*

**let's open up the whole world
we've just got to believe
open hearts, open minds
we are here, we're alive
can't you see
on the field of dreams**
